Education For Children, Fairness for Taxpayers

FLISA Talking Points for September, 2023 Hill Visits

FLISA Members – Consider what is best to share of the following based upon if the meeting is with a member of Congress, the member's experience with Impact Aid, or if this is a meeting with staff members. Also consider the NAFIS Meeting Tips. At some point in the meeting, please share with those in attendance the one-page handout.

Introduction and Purpose

- 1. We are here to explain and answer any questions about federal impact aid and ask for your support for funding.
- Explain impaction for each district (federal land, percentage, etc.). What would you lose without it? Tell your story.
- 3. We want to make sure the program stays in place and maintain this critical source of funding for our students and taxpayers. Unlike some programs, we must have *congressional support each year to maintain this program*.

Federal Impact Aid Background

- 4. The Impact Aid Program was signed into law by President Truman in 1950 and is the nation's oldest K-12 federal education program. For nearly 75 years, Congress has provided funding to school districts with bipartisan support.
- 5. Impact Aid reimburses school districts for the lost revenue associated with nontaxable federal property. This is valuable land that was seized by the government, *making that land exempt from local property taxes for schools*.
- 6. To be eligible for Impact Aid, a district must have 10 percent or more of its land owned by the federal government.

Student Impact and the National Associations

- 7. There are more than 1,200 federally impacted school districts that receive Impact Aid located across all 50 states. Together, we educate *more than 10 million public school students*.
- 8. Our association is the Federal Lands Impacted Schools Association (Section 7002), and <u>FLISA</u> represents approximately 200 districts and nearly 900,000 children that have federally owned land within their boundaries.
- 9. FLISA is part of the National Association of Federally Impacted Schools. <u>NAFIS</u> also includes Mid-to-Low LOT Schools (MTLLS), Military Impacted Schools Association (MISA) and the National Indian Impacted Schools Association (NIISA).

Local Financial Implications

- 10. School districts are largely funded through local property taxes and since federal property is exempt from local taxation, federally impacted school districts are at a *serious financial disadvantage in funding their schools*.
- 11. Impacted school districts receive on *average less than 10 cents on the dollar* of what would be received from local property taxes. This also has implications for our local taxpayers.
- 12. New lands added by the federal government in recent years means that more schools share the same amount of funds, which results in existing school districts each getting a smaller portion of the funding that is provided.

Our Ask of Congress to Support Our Students and Schools

- 13. We are asking Congress to provide some additional funding to account for newly acquired lands so that our currently federally impacted schools do not lose additional funding.
- 14. Specifically, we request that you consider supporting the *currently proposed increase in the Senate of \$2 million additional funding for Section 7002 Schools in FY24*. For federally impacted schools, *this is a grand total request of \$80,313,000* over the FY23 funded amount of \$78,313,000, *which is just a 2.55 percent increase*.
- 15. For those not already a member, please consider joining the bipartisan <u>Impact Aid Coalition</u>. More information is on our handout we will leave. Thank those who are already a member of the Coalition.
- 16. Please also consider supporting the <u>Advancing Toward Full Impact Aid Funding</u> Act, which is aimed at advancing towards fully funding the Impact Aid program. More information is available on our handout.
